Education

ASIA PACIFIC UNIVERSITY OF TECHNOLOGY AND INNOVATION — Kuala Lumpur, Malaysia
Bachelor of Science (Honours) in Computer Science (Cyber Security). — April 2027

Relevant Coursework: Deep Learning for Intrusion Detection, Vulnerability Assessment and Penetration Testing, Advanced Cyber Security, Software Security, Wireless and Mobile Security, Cloud Infrastructure, Data Structures, Operating Systems and Computer Architecture, Algorithmics.

DE MONTFORT UNIVERSITY — Leicester, United Kingdom
Bachelor of Science (Honours) in Cyber Security. — January 2027

Awarded a collaborative dual-certificate under the APU-DMU Dual Degree Program.

LAL LANGUAGE SCHOOL — Cape Town, South Africa
Completed 6 months professional English language program. — March 2023

Experience

Australian Laboratory Services Arabia — Dammam, Saudi Arabia
Information Technology Trainee — July 2025 – November 2025

- Specialized in cybersecurity governance by participating in a Saudi Aramco SACS-002 compliance audit.
- Provisioned and hardened workstations, integrating Zero Trust access, Active Directory, and BitLocker encryption.
- Sanitized decommissioned enterprise storage media to strict DoD 5220.22-M data destruction standards.

Projects and Activities

Faridex IAM Attack Path and Security Analysis System — March 2026 – August 2026

- An advanced AWS IAM security tool that discovers privilege escalation attack paths. It features an integrated AI Copilot for real-time compliance auditing and automated zero-trust remediation. View Project

Cybersecurity Volunteer – APU Open Days — August 2025 – April 2026

- Demonstrated live cybersecurity environments, digital forensics tools, and simulated cyberattack scenarios to prospective students and campus visitors.
- Educated non-technical audiences on fundamental security concepts and threat awareness.

Participant – b01lers CTF Competition — April 2025 – April 2025

- Solved complex cryptography, reverse engineering, and web application attack challenges during a competitive ethical hacking tournament.
- Collaborated with team members to strategize and execute offensive security tactics under strict time constraints.

Professional Training and Courses

CCNA: Switching, Routing, and Wireless Essentials March 2025
- Issued by Cisco View Credentials

Cybersecurity Fundamentals June 2025
- Issued by IBM Skills Build View Credentials

Red Hat System Administration I (RH124 - RHA) - Ver. 9.3 July 2025
- Issued by Red Hat View Credentials

Fortinet NSE 2 Certified in Cybersecurity August 2026
- Issued by Fortinet View Credentials

AWS Academy Graduate – Cloud Architecting – Training September 2026
- Issued by Amazon Web Services Training and Certification View Credentials

Skills and Interests

- **Programming**: Python (Advanced); C/C++, Java, JavaScript, PHP, R, SQL (Intermediate).
- **Security Domains and Software:** Vulnerability Assessment and Penetration Testing, EDR/XDR, IAM, SIEM and Log Management, DFIR, Network Monitoring, Web/API Security, OSINT, Linux Kali Ubuntu and Windows Administration.
- **Language**: Arabic (Native), English (Professional Fluency).
- **Interests**: Cloud Security Architecture (IAM, Posture Management, Continuous Monitoring), Data Encryption, Regulatory Compliance.
